

**FOR IMMEDIATE RELEASE:**

**Ms. Karen Webb Bailey Joins Definitive Business Solutions, Inc.**

*Reston, Virginia (PRWEB) April 7th, 2006 – Definitive Business Solutions, Inc. announced today that Ms. Karen Webb Bailey has recently joined the Definitive team as Sr. Vice President of Solutions Development and Chief Information Security Officer.*

In this role, Ms. Bailey will provide leadership for developing and deploying Performance and Risk Management solutions. Ms. Bailey has close to twenty years of experience in Information Technology and Risk Management, including program development and management, consulting, technical writing, and training. Ms. Bailey is the published author of Building Cisco Multi-Layer Switch Networks, and was Technical Editor for Cisco Remote Access Networks.

"Our Performance and Risk Management solutions are in greater demand than ever before," said Definitive President John Sammarco. "In joining the Definitive management team, Ms. Bailey will help take our company to the next level. More importantly, our clients will benefit from a leader in the industry."

Most recently, Ms. Bailey led the Supplier Information Security - Risk Management initiative for Bank of America. She led development and execution of risk management, compliance and governance processes for third party relationships with the bank. Her work at Bank of America provided the capability to measure and report on supplier risk and each supplier's level of compliance with industry regulations. Additionally, Ms. Bailey served on several key initiatives at Bank of America, including implementation of an Optical Core Network and new Metropolitan Area Networks in thirteen major cities. Prior to her work at Bank of America, Ms. Bailey filled a variety of leadership, training and consulting roles. Notably, she led the Information Security Engineering team for DownNET, building a market-leading technical training and consulting company.

Ms. Bailey attended the University of Wisconsin-Madison. She is a CISSP (Certified Information Systems Security Professional) and a CCIE (Certified Cisco Internetwork Expert). Past certifications held include CCSI (Cisco Certified Systems Instructor), MCNE (Master Certified Novell Engineer) and MCNI (Master Certified Novell Instructor).
